

Social distancing means avoiding close contact and crowded places whenever you can and aiming to keep approximately 1.5 metres distance from those around you in the community, in the workplace and at home.” (SA Health)

We encourage you to take social distancing seriously for:

- Staff and Parents who care for elderly parents
- Students who are now unable to see and hug their grandparents
- The parents in our community who work in essential services
- For those in our community who have underlying health issues and low immune systems

Social Distancing it is our responsibility so, the more space between you and others, the harder it is for the virus to spread.

At Temple we are encouraging:

Teachers and students to practice Social Distancing during class time by:

- encouraging students to spread out within a classroom
- practice good hygiene,
- keep air conditioners on and doors open for good ventilation during lessons.

Staff and students to practice Social Distancing during break times by:

- Avoiding any physical contact in the school yard
- Staying 1.5metres apart
- Avoid congregating in groups larger than 10 people
- Ensuring there are no more than 4 people per close table setting.

Temple currently has an effective and regular cleaning service in the school each night, however to ensure surfaces are not spreading germs, it is important that staff and students practise good hand and sneeze/cough hygiene:

Wash Wipe cover...don't infect another

- wash your hands frequently with soap and water, before and after eating, and after going to the toilet
- cover your cough and sneeze, dispose of tissues, and use hand sanitiser, and
- avoid contact with others (stay more than 1.5 metres from people).
